Math summer practice: add, subtract, multiply and divide integers and fractions and do some one and two step equations. _____

Summer Extra Credit Opportunity for 7th gd. Language Arts

Students who will be entering 7th grade this year **should** read The Hypnotists by bestselling author Gordon Korman. Students **should** also read The Watsons Go to Birmingham by another *New York Times* bestselling author, Christopher Paul Curtis, as we will be learning about the Civil Rights Movement this year. Other great choices include Out of the Dust by Karen Hesse, 42 is not Just a Number by Doreen Rappaport, The Jungle Book retold from Rudyard Kipling, and Wonder by R.J. Palacio.

After reading the book(s), write a 150-200 word summary of one, two or even three of these stories and give it to Mrs. Barkhurst during the first week of school for your name and accomplishment to be added to my website. Also, be prepared to talk about these books in class. You may also take an A.R. test or tests for these books to earn points.
