

## Waterloo Middle School: 8<sup>th</sup> grade supply list for 2019-2020

Please keep your student supplied with these items throughout the school year.

- pencils and erasers
- blue or black (ink) pens
- red pens
- 5 folders with side pockets
- scientific calculator
- 4 single subject spiral notebooks
- highlighters
- colored pencils
- box of Kleenex for the homeroom teacher

(All eighth grade students will need a scientific calculator for math class. Although any scientific calculator will be sufficient, they are encouraged to buy a Texas Instruments TI-30X IIS, which is the one that has been selected as the official calculator. That means that it will be a calculator that they can use through tenth grade. Graphing calculators, while they may be useful to a student in Algebra I, are not necessary and not allowed to be used during state testing.)
